PRODUCT INFORMATION

Taurus Security System®

The patented Taurus Security System® gives all Taurus firearms an extra level of security with the simple turn of a key. This system is completely inconspicuous and can be utilized at the owner's discretion to prevent unauthorized use of a Taurus firearm. The Taurus Security System® is included at no extra charge and comes with two keys.

SECURITY ENGAGEMENT (Locked): Insert the key into the lock mechanism and turn clockwise until a click is felt or heard and the "lock button" protrudes. The firearm is now inoperable.

SECURITY DISENGAGEMENT (Ready-to-Fire): To place the firearm in a firing condition, insert the key into the mechanism and turn it counter-clockwise. "Button" recedes when unlocked. The firearm can now be fired.

UNLIMITED LIFETIME REPAIR POLICY™

Simply stated, we will repair any Taurus firearm imported or manufactured by Taurus International FREE OF CHARGE should it ever require repair, for the lifetime of the firearm. Even if you purchase a pre-owned Taurus firearm, Taurus' lifetime repair policy follows it, remaining in effect. The only exclusions are damages caused by customer abuse, modifications and accessories, rust corrosion, sights, or (after one year) cosmetic defects.

NRA FREE one-year NRA membership with the purchase of any new Taurus firearm.

THE WORLD'S FOREMOST PISTOL MAKER

TAURUS. ENGINEERING THE ADVANTAGE.

We genuinely believe we manufacture firearms better than anyone else. Unlike other competitors that are merely "assemblers" of firearms, we manufacture everything: from the firing pins to the magazines, from the cutting tools to the high-speed CNC machines. Every piece, every part—even the machines that make the machines—are all owned by Taurus. This results in higher tolerances, lower costs, faster prototypes and breakthrough innovations. It's the undeniable advantage that only Taurus can offer.

1911 SERIES

Destined to become the standard that all 1911 pistols are compared to, the Taurus 1911 offers you the most accurate and feature-laden model on the market today. Starting with our own hammer-forged—not cast—ordnance grade steel frames, slides and barrels, we manufacture each and every part to tolerance levels that surpass even today's industry standards. Our skilled pistol smiths hand-fit and assemble each firearm with the 19 standard features seen on page 17, using quality parts that are built 100% in our state-of-the-art factory. Then they mark the slide, barrel and frame with matching serial numbers. Available in the powerful .45 ACP or 9 MM, this aggressive, rock-solid firearm is ready to go right out of the box. The Taurus 1911 is an unbeatable firearm that also provides an unbeatable value.

BEEN CRAVING A TAURUS 1911 WITH DIFFERENT AMMO CHOICES?

Well, the wait is over. We're now offering our popular 1911 model with 9+1 capacity in 9mm. With all these choices it's easy to see why Taurus is quickly becoming the leader in high-performance 1911s.

MODELS 92/100

In 1980 we purchased the Beretta factory in Sao Paulo "lock, stock and barrel" and immediately sought to improve on the classic Beretta design, resulting in the acclaimed Taurus Model 92 and Model 100 pistols. Today, we're taking these pistols further than they've ever been. Most notable is Taurus' drop hammer forged ordnance grade alloy frame that won't crack or allow the slide to come off. Other innovations include a three-position frame-mounted ambidextrous safety that is more secure than a slide mounted safety, and allows for a classic "cocked and locked" mode as well as a functioning DA decocking lever. Available with fixed sights, you'll be able to face any situation without compromise.

FEATURES

- Available in 9mm and .40 Cal.
- Blue and Matte Stainless
- Loaded chamber indicator for added safety
- Two Blue Steel High Capacity Magazines Come Standard

MODEL 4510TKRB

Capable of chambering both .410 2.5" shotshell and .45 Colt ammunition, the Taurus Judge® is ideal for short distances—where most altercations occur, or longer distances with .45 Colt ammo. We have finely tuned the rifling to spread the shot pattern at close quarters or to guide the .45 cal. bullet to the target. Fully customized with fixed rear sights, fiber optic front sights and Taurus Ribber Grip®, the "Taurus Judge®" is one decision-maker that lays down the law.

FEATURES

- Fires Both .410 GA. 2.5-inch Shotshell and .45 Colt Cartridges
- Blue or Matte Stainless Finish
- Fiber Optic Front Sight
- Ribber Grip®

TARGET RESULTS

Actual targets were shot at a 6-foot measured distance (total of 5 shots/target). .45 Colt (left target) and .410 ga. shotshell (right target).

3-INCH MAG JUDGE

Now there's a Taurus Judge® with even more stopping power— The 3" MAGNUM. Larger and more powerful, this Judge gives you the choice of hard-hitting .410 GA. 3-inch Magnum as well as 2.5-inch shotshells and .45 Colt ammunition. This outstanding combo firearm has already been proven effective for home defense, personal protection and as a pack gun on the trail. Whatever the situation—the Taurus Judge® lays down the law. Now with 3" Magnum rounds for MAGNUM stopping power.

FEATURES

- Fires Both .410 GA. 3-inch or 2.5-inch Shotshells and .45 Colt Cartidge
- Blue or Matte Stainless Finish
- Fiber Optic Front Sight
- Ribber Grip®

WARNING concerning ammunition marked "+P" and "+P+". Recently there have been many developments by ammunition manufacturers and reloaders, not all of them good. It seems some ammunition manufacturers and reloaders are in a horsepower race to see who can develop the most case pressure and muzzle velocity with little regard for practicality or safety. Some of these loads exceed common sense and can virtually tear metal apart. Taurus Firearms rated for "+P" ammunition are rated for Sporting Arms and Ammunition Manufacturers Institute (SAAMI) compliant "+P" ammunition. **SAAMI does not recognize any "+P+" ammunition at all. It is DANGEROUS to fire "+P+" ammunition in any Taurus firearm and if you do so you may be seriously injured or killed.**

In addition, it seems some ammunition marked "+P" is not SAAMI compliant either. **There are only four calibers that can carry a "+P" rating from SAAMI.** They are 38 Special +P, 9mm Luger +P, 38 Super Automatic and 45 Automatic +P. **There are no other SAAMI approved "+P" loads.** Any ammunition in any other caliber marked "+P" is not SAAMI compliant, may be dangerous and should not be used.

DANGER for "+P+"

Never use "Plus -P -Plus" (+P+) rated ammunition in any Taurus firearm. The Sporting Arms and Ammunition Manufactures Institute (SAAMI) does not recognize such ratings and such ammunition can be very dangerous. Firing such ammunition can cause catastrophic failure in firearms resulting in serious bodily injury or death.

WARNING for "+P"

Only fire SAAMI rated Plus P ("+P") ammunition in Taurus Models designated by Taurus for +P use as below. Firing +P ammunition in other Taurus products may be dangerous and can result in serious bodily injury or death.

- Model 85 small frame revolver in 38 Special.
- Model 850 small frame revolver in 38 Special.
- Model 851 small frame revolver in 38 Special.
- Model 85 Polymer small frame revolver in 38 Special.
- Model 82 medium frame revolver in 38 Special.
- Model 817 medium frame revolver in 38 Special.
- All firearms chambered in 38 Super Automatic.
- All firearms chambered in 45 Automatic. (ACP)
- All firearms chambered in 9mm Luger.

WARNING

Even if your Taurus firearm is rated for Plus-P ("+P") ammunition, such ammunition generates pressures significantly in excess of the pressures associated with standard ammunition. Such pressures may affect the useful life of the firearm or exceed the margin of safety built into many firearms. Unless you need +P ammunition, do not use it, particularly for practice.
